Regarding to the **Seminar and good practices exchange:**

The Seminar offers a learning approach that reaches out to the participants through a wide range of non formal education tools, coaching methods and techniques through learning by doing or learning by experiencing. All the attendees should prepare and share our existing practices and realities, as well as consult youth sector, disability sector, laboral sector and young people to summarize your local reality.

Other important aspects such as monitoring and evaluation, as well as the visibility and exploitation of results, will be coordinated by Europe Direct Albacete, but involve together all project partners. In this regard, we expect from our partners a special implication.
